

# WE DELIVER YOUR **BISPECIFIC** ANTIBODIES

Developed by our experienced global teams, **Abthena™** complements our diverse discovery process, integrating seamlessly with our **Artemis™ Intelligence Metadata (AIM)™** capabilities.

## Superior Bispecific Antibodies

- Advanced discovery platforms for bispecific antibody components
- Heterodimer formation-optimized IgG backbones
- Bispecific binding validation
- Comparable yields as monospecific equivalents
- High degree of dimer formation
- Humanization and engineering
